

Team Fiat completed the Line Mechanic Qualification in August

Official Newsletter of MITA Consulting Ltd

A Word from the MD

It's nearly the end of an interesting year that has presented many challenges to both the Electricity Supply Industry and to many New Zealander's personally.

I would like to thank our Customer's, Trainee's, MITA Office Staff and our MITA Trainers for their hard work and understanding this year. I am extremely proud of the MITA Family and the industry as a whole in how they have pulled together to help each other.

There are many new developments happening within our industry TTAF, RoVE and Covid to name a few and with new developments comes the need for new processes. One of the processes we have introduced is online assessments for Worker Type Competency Renewals. You may now be able to renew some of your WTC's in an online assessment. If you are looking for more info on whether this will work for you please contact admin@mitaconsulting.co.nz

Recently we also had an audit in order to complete our re-certification of our ISO9001, which we maintained successfully.

This year we have seen close to 1000 students train with MITA Consulting, whether that be Line Mechanic, Cable Jointing, WTC's and currently 96% of students have successfully passed the courses they have attended.

Lastly, even though it's a little early, I'd like to wish everyone a safe and relaxing Christmas and New Year period. Enjoy spending time with your friends and family and see you in 2021! Miri Kirihimete!

- Dave

Amross Motel Dunedin

When staying in Mosgiel, our Trainers stay at the Amross Motel.

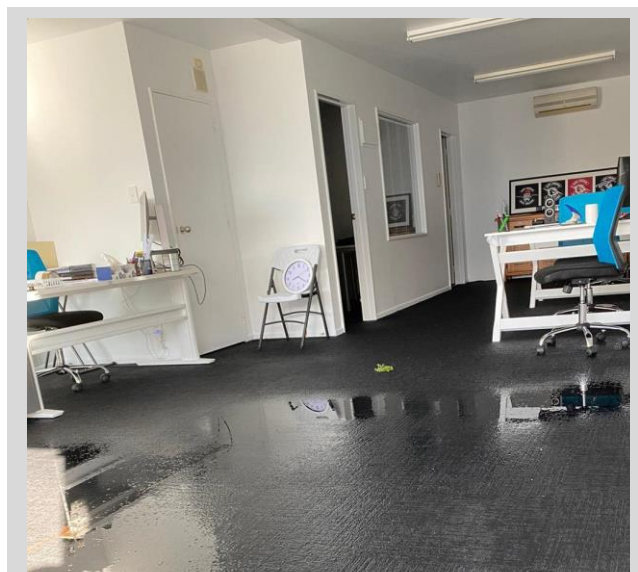

The owner/operators are Donna and Barry who are superb hosts. The hotel is always clean, comfortable and quiet and is a great choice for your Trainee's should you be looking for accommodation during Mosgiel courses.

You can contact them on amrossmotel@callplus.net.nz

Napier Branch

MITA has now opened a small office in Napier, this will be mainly used for admin purposes but can accommodate a small group if need be. All courses in Napier will still be held at EIT unless otherwise specified. Unfortunately, our new space was submerged under a foot of water during the recent floods, however with help of some local tradies we were able to salvage most things and are back up and running.

Courses in 2021

Next year there will be an overhaul of the Line Mechanic and Cable Jointing qualifications which will take effect some time in 2021. The crane portion in Block 3 (US30072 & 16617) will no longer be a part of the Line Mechanic Qualification. MITA still offers full Crane Courses and refresher courses, contact stacey@mitaconsulting.co.nz for more information.

We have 5 new Block 1 Line Mechanic Block courses beginning in 2021 which will be running across New Zealand. We also have 3 new Cable Jointing Courses starting next year, courses are filling up fast so contact us to get your staff training booked in.

Team Taihape completed their final Cable Jointing Course in October.

Targeted Training and Apprenticeship Fund

The Targeted Training and Apprenticeship Fund (TTAF) also known as the Free Trades Training was introduced in July 2020. Since then, MITA has seen increased enquiries and student enrolments in both the Line Mechanic Qualification and Cable Jointing Qualification.

If you have new or existing staff members you are wanting to train or upskill please don't hesitate to get in touch.

Congratulations to Derek Passmore from NorthPower Whangarei who has won a \$150.00 Prezzy Card for completing our MITA Stakeholder Survey!

Thanks to everyone who took the time to complete the survey!

Team Titans during their Live Line training in Dunedin

Safety Slogan of the Month

"Safety is like a padlock and YOU are the key"

Team Uniform completed their Line Mechanic Qualification in Napier in October.

For any queries about Live Line, Line Mechanic and Cable Jointing courses, please contact Operations Manager Mark Adams mark@mitaconsulting.co.nz or 027 548 7148

Please contact our Admin Team if you have any new trainees, require any additional courses or would like more information on other courses MITA runs.
